### A Designer's Funny Imaginations - Aleksej Iskos of Denmark

Born in Kharkov, Ukraine, designer Aleksej Iskos is an object designer working in Denmark. Being the spontaneous creator of objects using everyday materials such as water, mirrors, pickle jars, plastic bags, and woods, he miraculously turns them into artistic objects with stories of their own. Despite the fact that many cases of his ideas and concepts remain as prototypes, Iskos outwits with ever more springs of experimental fun and wit. ■
